April 27.—Cattle—Receipts, 100; shipments none. As usual at the close of the week, there were not many fresh arrivals of cattle, and there was no quotable change in prices compared with those current for equal kinds yesterday. The receipts this week show little change compared with last week and an increase of 900 over the corresponding week a year ago. Thus far this year the receipts are nearly 17,000 larger than the same period last year. There has been an unusually satisfactory market all week, especially for fat cattle. Prices have not been materially advanced, but there has been very heavy requirements of local houses, and shippers have been unable to complete many orders. A better class of cattle was marketed than for some time past, and some of the highest prices of the year thus far were realized. The bulk market was also strong, with sales as high as \$5.50, heifers were reported as high as \$5.25 and cows sold up to \$4.50. The bull market was also strong, with sales as high as \$4.25, and the extreme price for calves was \$4.25. Quotations:

## BROAD TRADE IN WHEAT

MARKET ACTIVE AND STRONG, GAINING MORE THAN A CENT.

Corn Quiet, but Firmly Held, Oats with Independent Strength—Irregular Changes in Provisions.

CHICAGO, April 27.—There was a broad, strong market for wheat to-day, and the May option closed 15c over yesterday. Corn which closed at 75c, was 1c higher, was rather quiet, but the wheat market showed considerable activity, closing 1/2c higher. Provisions were dull, closing 12 1/2c higher to a shade lower.

The market for wheat was the broadest in weeks. May opened 1/4 to 1/2c higher at 75 1/2 to 76 1/2c, and without material reversals advanced firmly to 74 1/2c and closed 15c higher at 75 1/2c.

A feeling of confidence, 75c, was with Liverpool cables showed a good advance and the spot market revealed renewed strength. Receipts were moderate and continental tidings were favorable to holders of wheat. Broomhall reported that the week's sales to the continent aggregated 5,000,000 bu, 3,000,000 being to Hamburg.

During the half-day session New York exporters advised of 42 loads taken for foreign account, mostly sales here, of buyers, reached to total of 500,000 bu. Texas sent further reports of damages, asserting that in some parts of the State the crop was a total loss. Other Southwestern points noted the baneful incursion of insects, notably Oklahoma. Bankers in the latter territory predicted the loss of half the crop. At the opening large quantities of wheat were for sale, but this condition speedily gave way in the face of the strong demand, and thereafter it was found necessary to increase bids in order to bring in orders. The volume of business was large, but was chiefly for the local account. Seaboard clearances, in wheat and flour, were equal to 42,000 bu. Primary receipts were 45,000 bu, compared with 43,000 last year. Minneapolis and Duluth reported 353 cars, against 263 last year and 222 a year ago. Local receipts were 96 cars, one of contract grade.

For the consideration of the corn trade there were reports of frost country acceptance. It was said that country holders who for months have evinced a disposition to hold tightly to their corn were willing of a sudden to sell quantities aggregating 100,000 bushels, and the market was created a feeling of confidence in the pit, and for a few minutes Phillips, the bull leader, sold to medium cash, 75c, and closed at 75 1/2c. Receipts were 170 cars, two of contract grade.

Independent strength characterized the wheat market. A strong spot market and delayed farm work were factors. Elevator interests, replacing heavy wheat, held steady. This demand was supplemented later by a general commission house report that the crop sold between 45 1/2c and 46 1/2c, and closed unchanged at 45 1/2c, July ranged between 45 1/2c and 46 1/2c, and closed at 45 1/2c. Receipts were 170 cars, two of contract grade.
